OBJECTIVE

A second-year Mechanical Engineering student with a keen interest in web development, actively seeking an internship opportunity to deepen technical expertise. Eager to contribute my skills in front-end development to a dynamic team, where I can learn and collaborate on innovative projects. Committed to bringing a high level of enthusiasm, adaptability, and a strong work ethic to a professional web development environment.

PROJECTS

Amazon Clone (Home Page)

- Replicated the front page of the Amazon website using HTML, CSS, and JavaScript.
- Implemented responsive design principles for optimal viewing on various devices.

Calculator

- Developed a basic calculator application using HTML, CSS, and JavaScript.
- Ensured functionality for essential arithmetic operations and a user-friendly interface.

Simple Clock

- Created a simple clock using HTML, CSS, and JavaScript.
- Implemented real-time updating to display accurate time.

Tic Tac Toe Game

- Developed a two-player Tic Tac Toe game using HTML, CSS, and JavaScript.
- Implemented logic for game rules and ensured an interactive gaming experience.
